Tip** *

- Mounts available to fit most saw makes and models. Custom mounts also available.
- Specialty chain and sprockets available.

**CCA - Arborist
Tip**

* Actual Tip
Size

QUALITY HIGHLIGHTS

PRECISION GROUND GROOVE IS ACCURATE TO WITHIN 0.002 OF AN INCH FOR STRAIGHT, EVEN CUTTING. **INDIVIDUALLY CENTERED RAILS** ALLOW FOR EVEN RAIL WEAR AND LONGER BAR & CHAIN LIFE.

PRECISION SQUARED RAILS ENHANCE SPEED AND SMOOTHNESS OF CUT, AND HELPS ALLOW CHAIN TO RUN STRAIGHT AND TRUE.

FOR SUPERIOR WEAR RESISTANCE, THE **RAILS ARE FLAME TEMPERED** TO AT LEAST 5 POINTS HARDER THAN THAT OF CHAINSAW CHAIN TIE STRAPS.

THE **COBALT TIPPED NOSE** REMAINS VERY HARD, EVEN AT HIGH TEMPERATURES, ENABLING IT TO KEEP ITS SHAPE FOR MUCH LONGER THAN STEEL. THIS ENHANCES CUTTING PERFORMANCE AND INCREASES BAR LIFE.

CANNON CARVING BARS ARE **HAND MADE** FOR THE **ULTIMATE QUALITY** THAT HAS BEEN OUR CORNERSTONE FOR MORE THAN 50 YEARS.

CANNON CARVING BARS ARE MADE FROM **CUSTOM ALLOY STEEL** THAT HAS BEEN HEAT TREATED TO THE **IDEAL HARDNESS** FOR MAXIMUM STRENGTH AND WEAR RESISTANCE.

THE ATTRACTIVE **GUNMETAL FINISH** ACTS AS A RUST PROHIBITIVE WITH ENHANCED BONDING CHARACTERISTICS. THIS FINISH LOOKS GREAT AND WILL STAY ON LONGER THAN PAINT.

**EXPERIENCE REAL QUALITY,
TRY A CANNON...**
